

# Tudor Grange Academy Redditch

## SEN Information Report

**Last reviewed: January 2017**

At Tudor Grange Academy Redditch we value every student as an individual and are committed to supporting each student to achieve their potential and to prepare for adult life. We are a fully inclusive Academy.

The information in this document describes our provision for students with a Special Educational Need or Disability (SEND) and reflects Worcestershire County Council's local offer, which can be found [here](#).

### SEND

The [Special Educational Needs and Disability Code of Practice](#) (DfE, 2014) describes a child as having SEND if "they have a learning difficulty or disability which calls for special educational provision to be made for him or her". Students can be identified as having SEND at any point during their time at the Academy, including:

- During transition to the Academy, from information shared by the primary or middle school
- During induction week, as identified from Cognitive Abilities Tests (CATs)
- Analysis of Key Stage 2 SAT results
- When staff raise concerns that a student is underachieving or struggling
- Through data analysis, including reading assessments, screeners and half termly common assessments in each subject area
- If external agencies are involved with a student

### Achievement Support College

Support for SEND students is co-ordinated by our Achievement Support College, which comprises members of staff with a wide range of expertise and experience. This includes:

- SENCo
- Attendance Welfare Officer
- Autism specialist
- Looked After Child (LAC) mentor
- English as an Additional Language (EAL) mentor
- Learning Mentors
- Teaching Assistants

Assessment, advice, guidance and strategies are also sought from external agencies when appropriate. These include:

- Speech and Language Service
- Complex Communication Difficulties (CCD) Team / Autism Team
- Child and Adolescent Mental Health Service (CAMHS)
- Learning Support Team (LST)
- Behaviour Support Team (BST)
- Hearing Impairment Team
- Visual Impairment Team
- Physical Disability Outreach Team
- Occupational Therapy
- GPs and Community Paediatricians
- Footsteps bereavement counselling
- Early Help and Family Support
- Family Front Door / Social Care

## Levels of Intervention

Our students' needs are met using 3 levels of intervention, described as "waves of support", which support access to the curriculum. Progress is closely monitored following an 'Assess – Plan – Do – Review' cycle to ensure we secure effective support for all students. If a student makes little progress on one wave, they may be moved to the next wave which offers a higher level of support. SEND provision is monitored via the Academy's whole school quality assurance calendar and the performance management cycle. The provision is reviewed at timely intervals by the SENCo and Achievement Support College staff.

**Wave 1** describes quality inclusive teaching, which takes into account the learning needs of all the students in the classroom. It includes providing differentiated work and creating an inclusive learning environment.

- Mainstream classes with half termly reviews of groupings through common assessments and effective tracking of progress
- Effective reporting and communications system in place for liaison with parents and carers, including: half termly reports for all students showing common assessment data, attitude to learning and progress to target; tutor reports; regular correspondence in the form of letters and notifications; contact via telephone as required from tutors, teachers and learning mentors; parents' evenings; Year 7 welcome evening; induction evening for Year 6 students
- Students' books are regularly marked and there are opportunities for students to respond and engage in dialogue about their learning
- Whole school Quality First Teaching (QFT) practice embedded across all subject areas. The key characteristics of QFT are: highly focused lessons; students involvement in and engagement with their learning; high levels of student interaction; teacher questioning, modelling and explaining; opportunities for students to talk individually and in groups; students accepting responsibility for their learning and working independently; regular praise to motivate and encourage students (DCSF, 2008) *Personalised learning – a practical guide*
- Work is set at an appropriate level to develop students' potential and appropriate methods and resources are used to engage students in their learning
- Use of self- and peer-assessment and peer learning
- Challenge, support and modelling within classrooms to develop learning
- Reinforcement and opportunities for over-learning
- Dyslexia-friendly classrooms
- Annual reading assessments track progress in reading age
- Differentiated approaches to content, language, pace and delivery of lessons
- Increased visual stimuli and resources to meet needs of some students
- Modification of tasks that include a high literacy content for some students
- Accessible classrooms that are conducive to outstanding learning
- Observations to identify learning behaviours
- Screening for learning difficulties, such as dyslexia and dyscalculia
- Easily accessible Academy buildings
- Student attendance is closely monitored by the Attendance Welfare Officer
- Transition arrangements for Year 6 students includes SENCo visits to primary schools, week-long induction programme and individual visits for vulnerable students
- All students are encouraged to participate in Period 6 opportunities

- The Learning Resource Centre is open at break and lunchtimes and after school for students to socialise in small groups and use the ICT facilities, and is a safe place to go for students who may need additional support during social times
- Support with transition from Key Stage 3 to Key Stage 4, including options meetings and support with the decision making process
- Support with transition to post-16 providers and destination choices

**Wave 2** describes specific, additional and time-limited interventions provided for some students who need help to accelerate their progress to enable them to work at or above age-related expectations. They are often targeted at a group of pupils with similar needs. Students on a Wave 2 intervention may be placed on “In-School Support” or “SEN Support”.

- Smaller class sizes in core lessons
- Mentor support for students with a physical disability
- Learning and social skills development through targeted small group or 1:1 intervention
- Emotional and social support and development through small group or 1:1 mentoring
- In-class support from Learning Mentors to scaffold access to learning in lessons
- Support implemented to deliver the above mentoring and interventions and Learning Mentors assigned to oversee individual student’s progress
- Pre-teaching of keywords, content and concepts for lessons
- Catch up intervention within subject areas
- Input from Speech and Language therapist in the form of group intervention
- Access arrangements for examinations
- Alternative methods of recording, including use of electronic writing aids and scribes
- Tutor and College Reports used to support engagement and behaviour
- SEND register shares with staff a range of strategies to engage and support students in being successful
- Students may be placed on the Worcestershire Dyslexia Pathway or Speech and Language Pathway

**Wave 3** describes targeted provision for a minority of students where it is necessary to provide highly tailored interventions to accelerate progress or enable them to achieve their potential. Students on a Wave 3 intervention are placed on “SEN Support” and may be identified as requiring an Education, Health and Care Plan if the support needed is long term.

- Access to the Mainstream Autism Base, including small group and 1:1 support and a personalised timetable
- Some individual teaching on a 1:1 basis as part of a student’s provision
- Personalised curriculum, including offsite provision
- Annual Reviews of Statements of Special Educational Needs and Education, Health and Care Plans
- Input from Educational Psychologist on a 1:1 basis for assessment and/or therapeutic work
- Specialist advice from outside agencies on strategies to support students at school and at home
- Multi-agency support through Early Help Hub

## **Parent and Student Voice**

Parents/carers are consulted at each wave to ensure they are fully involved in their child's education, as are the students themselves. Both are invited to provide their views during contact with Achievement Support College staff throughout the year, and particularly as part of the Education, Health and Care Plan annual review process, but contributions are welcome at any time of the year if there is a concern or query. Student voice is recognised and valued, is an integral part of school life and involves ascertaining the views of all students, including those with SEND. Views of both students and parents/carers are also sought during transition from Key Stage 3 to Key Stage 4 through a well-planned options process. Similarly, during transition from Key Stage 4 to Key Stage 5, and at the end of Key Stage 5, appropriate information is shared with relevant educational establishments and students and parents/carers are fully involved in this process. Information, advice and guidance on career and future education options is provided across a student's time at the Academy.

## **Contact**

The Academy's SENCo, Miss Clare Waterhouse, is contactable via the school office on 01527 523088. If parents or carers are unhappy with any aspect of SEND provision, they should discuss this in the first instance with the SENCo. In the event of a formal complaint being made, parents/carers are advised to follow the Academy's complaints procedure.
